OBJECTIVE

Motivated BCA student with a strong foundation in computer applications, programming languages, and technical skills. Eager to contribute to an organization's success by leveraging my knowledge and passion for technology.

EDUCATION

Bachelors of Computer Applications , GLA University	March , 2025
Secondary Education , St. Paul's School	March , 2022
Higher Education , St. Paul's School	March , 2020

SKILLS

Technical Skills

- Java
- HTML,CSS
- SQL
- Java script

Soft Skills

- **Problem Solver:** Adept at identifying challenges and developing effective solutions in a timely manner.
- **Adaptive Nature:** Flexible and able to adjust to new situations and changes in priorities with ease.
- **Attention to Detail:** Committed to maintaining high standards in work quality by thoroughly reviewing and refining outputs.

PROJECTS

Faculty Portal

- Developed a comprehensive Faculty Portal aimed at streamlining administrative tasks and enhancing communication between educators and students.
- Implemented features that allow students to connect directly with teachers, facilitating real-time clarification of doubts and fostering a collaborative learning environment.
- Utilized [Insert relevant technologies, e.g., Java, Python, frameworks.] to ensure a robust and user-friendly interface.
- Conducted user testing and gathered feedback to continually improve system functionality and user experience.

Chatbot Application

- Developed a Chatbot Application designed to support students by providing easy access to notes and study materials through an interactive chat interface.
- Enabled students to quickly retrieve academic resources, fostering a more efficient and engaging learning experience.
- Utilized [insert relevant technologies, e.g., natural language processing, AI frameworks] to create a responsive and user-friendly system tailored for educational purposes.
- Focused on enhancing academic support, allowing students to obtain essential materials with ease and convenience.

Self-Portfolio

- Created a comprehensive self-portfolio that highlights my journey in the technology field, showcasing key learnings and certifications achieved to date.
- Designed the portfolio to effectively reflect my skills in web development, demonstrating practical applications of my knowledge and experience.
- Emphasized a user-friendly interface and engaging design to effectively communicate my professional growth and technical competencies.

Weather Website Development

- Developed a simple website utilizing a Weather API to deliver real-time weather updates and forecasts.
- Designed the website to provide users with an intuitive interface for accessing current conditions, hourly forecasts, and extended weather predictions.
- Implemented features that allow users to search for weather information based on location, enhancing usability and accessibility.
- Focused on creating a responsive and user-friendly site that showcases my skills in web development and API integration.

Simple Calculator Development

- Created a simple calculator using HTML, CSS, and JavaScript, demonstrating fundamental web development skills.
- Designed an intuitive user interface that allows users to perform basic arithmetic operations such as addition, subtraction, multiplication, and division.
- Implemented responsive design principles to ensure a seamless user experience across various devices.
- Focused on enhancing JavaScript functionality to handle user inputs and calculations efficiently.
